

COVID-19 Office Information

In light of the COVID-19 pandemic, we are making every effort to stay connected to our patients and to keep you safe.

We are excited to announce that we are now offering TeleVisits, a safer appointment option, which allows patients to have a video visit with their medical provider from the comfort of their home or office. During the pandemic we can use this tool to help you with acute sick visits and help you manage your chronic diseases. Examples of visits we are doing by video include cough, fever, UTI, abdominal pain, diabetes, hypertension, anxiety and depression.

To schedule a TeleVisit call our office at (978) 251-3159) Please note this is a billable service. If this is not covered by your healthcare insurance, you will be responsible for covering costs. All visits related to COVID-19 are covered in full with no cost sharing. Ensure you are enabled for our Patient Portal and know your username and password when your appointment is booked.

Please feel free to call us
if you have any questions or concerns.

Follow us on social media @chelmsfordfamilypractice for updates on our operations during this crisis.

Stay safe, we are still here to care for you.
